- docket; costing analysis
- inventory; status and orders
- financial; sales and margins
- exports to accounting programs

Purchase Orders

- automatic creation from estimates
- vendor statements
- vendor invoices
- payments
- accounts payable

What the Enterprise Manager application can do for you

In dealing with today's markets, it is imperative that your company maintain accurate data on clients, rates, estimates, production dockets, production scheduling, costs, purchase orders, shipping and invoices.

The power of this application is derived from the philosophy that you "enter data once and use it many times".

Several programming links are setup between all areas of the Enterprise Manager. To increase efficiency and accuracy, simply select an item from a drop down menu and all the appropriate information is filled in for you automatically.

Special Needs: We build customized solutions to suite your business needs.

Platforms: The Enterprise Manager is developed in FileMaker Pro and runs on both the Mac OS X and Windows XP, Vista platforms for a multi-user environment.

Efficient Information Flow Is Important To The Success Of Your Business

BARD BUSINESS SOLUTIONS INC. is a solution provider for all your customized database needs since 1995. -- Why? Because off-the-shelf software does not do business the way you do business.

The BARD BUSINESS SOLUTIONS INC. Mission Statement

To provide solutions to companies and individuals who need the accurate processing of information using PC or Macintosh technology through the implementation of customized databases.

After all, information flow is instrumental in the success of most businesses today.

Philosophy

Enter data once and use it many times. Let the software work for you, instead of you working for the software.

BARD BUSINESS SOLUTIONS INC. is an Associate Member of the FBA.
